

Checklist of Birds Of Kentuckiana

The Kentucky Society of Natural History

The Kentuckiana Area

Birds in this area include Jefferson County and Southern Indiana.

This area is especially rich as a haven for species of Neotropical migrant birds.

Neotropical migrants, indicated by **boldfacing** in the checklist, are species that breed in North America and then migrate to the tropical regions of Central and South America to spend the northern winter. Some birds may be termed partial Neotropical migrants; that is, a portion of their population migrates to the tropics for the winter, but a large fraction winters in the southern parts of North America. Partial Neotropical migrants are indicated by *italics* in the checklist.

Some species of Neotropical migrants are currently undergoing population declines throughout their ranges as a result of the effects of forest fragmentation and clearcutting. Protecting large tracts of mature forest may be the best means of ensuring the survival of these species.

Status Codes

PR	Permanent Resident
SR	Summer Resident
WR	Winter Resident
Tr	Transient
Vi	Visitor (no pattern to occurrence)

Asterisks indicate confirmed (**) and highly probable (*) breeding in the area.

Habitat Obligates and Generalists

The following codes are used to indicate the preferences of species with habitat restrictions:

- A Usually associated with **aquatic** habitats, such as rivers, lakes and ponds.
- P Usually associated with upland **pine** forests.
- O Usually associated with **open** habitats, such as old fields, pastures, homesteads, and recently developed areas.

Seasons of Occurrence

Sp	Spring (March-May)
Su	Summer (June-July)
Fa	Fall (August-November)
Wi	Winter (December-February)

Abundance Codes

- a Abundant (26+ likely to be seen/heard in appropriate habitat in one day)
- c Common (11-25 likely to be seen/ heard in appropriate habitat in one day)
- fc Fairly Common (3-10 likely to be seen/heard in one day)
- u Uncommon (1-2 likely to be seen/heard in one day)
- vu Very uncommon (1-5 records during a season likely)
- r Rare (only 1-3 records ever made)
